Energy Efficiency

Beginning Summer 2010, all customers in the FirstEnergy territory will be subject to a new energy efficiency surcharge on their electric bill. However, those businesses that use a large amount of electricity and have made energy efficiency improvements in their facilities since 2007, such as a lighting retrofit, may have the opportunity to bypass this energy efficiency surcharge.

Please complete and return the following form to help us identify if your company may be eligible to avoid the upcoming surcharge.

Company: _____ Contact Name: _____

Address: _____

Email Address: _____ Phone Number: _____

What is your annual electric usage in kWh? _____

How much do you spend annually on your electric? _____

What is the approximate size of your facility /facilities in square feet? _____

What are your hours of operation? _____

How many full time employees do you currently have in Ohio? (Please include yourself) _____
