

Join Weight Watchers Meetings and Watch Yourself Change[®]

Research shows that people lose three times more weight on Weight Watchers than they do on their own.²

What you will learn how to do at Weight Watchers meetings:

Slim Down: Slow and steady weight loss of no more than an average of two pounds per week (after the first three weeks) is the recommended way to lose weight.

Eat Wisely: Take a look at your eating habits and see where improvements can be made.

Increase Physical Activity: Make physical activity a part of your daily life — an important way to help maintain a healthy weight and lower your risk for health problems.

What Can I Expect from a Weight Watchers Meeting?

Meetings

- You attend meetings once a week for less than an hour.
- Each week you have a confidential weigh-in to help you track your progress.
- Every week you learn how to make healthy choices and enjoy food and exercise.

Coaching and Exchange

- Enjoy support from your meeting leader, who is trained to respond to each member's needs and is committed to your success.
- You also benefit from the group support, which includes the exchange of tips, recipes and hearing other participants' practical experiences.
